

Jindera Public School

Works notification | 21 September 2026

Dear staff, parents and carers,

The health, safety, and wellbeing of all members of our school and the local community are our highest priorities.

We installed a closed-circuit television (CCTV) security system at Jindera Public School. The following works were undertaken:

- installation of a new CCTV system to provide improved monitoring across the school, with secure storage for approximately 42 days of footage
- installation of a video intercom and access-control system at the front pedestrian gate to improve how visitors enter the school
- installation of internal intercom monitors in the administration area and principal's office
- upgrades to the front gate, including electronic locking, release controls and an automatic gate closer
- installation of underground communications cabling between the administration building and front gate
- improved monitoring of the public reception and sick bay areas, testing, programming and commissioning of the new systems to ensure they are operating effectively.

Collectively, these works were intended to improve the functionality, safety, security and overall environment of the school site, ensuring the infrastructure is appropriately equipped to support the needs of the school community both now and into the future.

For more information on CCTV including how the department uses footage, privacy laws and record keeping, please visit the department's [CCTV – use of closed circuit cameras page](#).

Thank you for your cooperation and support during this important work.

Jindera Public School Kindergarten 2027 Enrolment

Our Kindergarten 2027 enrolments are kicking off! you can enrol your child in Years K–6 via the enrolment [link](#). We are so excited to welcome our newly enrolled students beginning their journey with us in 2027.
