

The Junction Public School

Works notification | 14 December 2022

Dear staff and parents/carers,

Upcoming planned works to remove a footpath from The Junction Public School will involve working with asbestos containing material in the ground. The footpath is being removed as a result of the removal of a demountable building and the area will become play space for the school once the work is complete.

Work will take place during the summer school holidays between Wednesday 21 December 2022 and Thursday 26 January 2023.

The area will be cordoned off before works start. Safety measures and monitoring will be put in place and the area will remain out of bounds to any staff or students who may visit the school over the holidays until the removal and associated maintenance work is completed.

This area will be remediated in accordance with SafeWork NSW regulations and the NSW Department of Education's Asbestos Management Plan. All work will be completed by licensed and accredited asbestos contractors, and monitored by occupational hygienists in strict accordance with all applicable legislation, regulations, policies and guidelines.

The area will be inspected to ensure it has been fully remediated. The school will receive a clearance certificate before the area is open to students and staff.

The health, safety, and wellbeing of the school and the local community is our highest priority.

Thank you for your cooperation during this important work.
