

Kangaloon Public School

Works notification | 28 February 2025

Dear staff, parents and carers,

Drinking water quality testing was recently conducted at Kangaloon Public School as part of our routine water testing program.

Findings have detected traces of bacteria in samples collected from bubblers located outside Building T.

Access has been restricted and signage has been installed to remind students and staff not to use the affected outlets.

The school has been provided with bottled drinking water.

We are working with an independent hygienist to undertake the required remediation work.

Work began yesterday (Thursday 27 February 2025) and will be carried out by qualified and licenced contractors.

When work is complete, the independent hygienist will re-test the outlets to ensure the water meets the requirements of the [Australian Drinking Water Guidelines](#).

The health, safety and wellbeing of the school and the local community is our highest priority.

If you have any questions about this work, please contact the NSW Department of Education on the details below.

Thank you for your cooperation during this important work.
