

# Karuah Public School

Works notification | 20 October 2023

Dear staff and parents/carers,

We are continuing with work on the administration and school entry upgrade at Karuah Public School.

Upcoming work involves removing asbestos containing material located in the Administration and Student Amenities building (Building A). This work includes removing existing vinyl floor tiles to install new flooring, the replacement of external wall panels beneath windows, and the replacement of ceiling sheets.

This work will take place over Saturday 4, Saturday 11 and Saturday 18 November 2023. Construction areas within Building A will be cordoned off before the work starts and during the work periods. All work involving asbestos containing materials will take place outside of school hours, with additional safety measures and monitoring in place before the work starts.

Work will be done in accordance with SafeWork NSW regulations and the NSW Department of Education's Asbestos Management Plan. All work will be completed by licensed and accredited asbestos contractors and monitored by occupational hygienists in strict accordance with all applicable legislation, regulations, policies, and guidelines.

Temporary fencing to secure the work site will remain in place until clearance from the independent hygienist is provided and before Building A is reopened.

The health, safety, and wellbeing of the school and the local community is our highest priority.

Thank you for your cooperation during this important work.
