Kenthurst Public School
Works notification | 13 November 2025

Dear staff, parents and carers,

We are refurbishing the bathroom facilities next to the sports court in Building D at Kenthurst Public School.

This project requires removing known bonded asbestos as listed on the school's asbestos management plan. The area will be cordoned off before the work starts and safety measures will be put in place. The removal will take place on Saturday 29 November 2025 when no students are onsite.

An independent hygienist has been engaged to conduct air monitoring and testing following the removal of asbestos-containing materials. A clearance certificate will be provided before the area is reopened.

NSW Health explains that "living or working with asbestos, or just being around it, is a low risk to your health as long as the asbestos is in good condition and not damaged".

All work involving asbestos-containing materials will take place outside of school hours and in accordance with work health and safety laws as well as the NSW Department of Education's Asbestos Management Plan. All work will be completed by licensed asbestos contractors and inspected by independent hygienists.

The health, safety, and wellbeing of all members of our school and the local community are our highest priorities. We will keep the community updated.

Thank you for your cooperation during this important work.

Did you know?

Kenthurst Public School is a caring, community-focused school where every child is valued, nurtured, and inspired to succeed. With dedicated teachers and innovative programs, students are supported to achieve their personal best in every area of learning. Having provided quality education for over 140 years, Kenthurst offers outstanding facilities while delivering high-quality education through innovative and diverse programs that prepare students for future success.
