

Kiama Public School

Works notification | 14 September 2026

Dear staff, parents and carers,

The health, safety, and wellbeing of all members of our school and the local community are our highest priorities.

We are providing an update regarding ongoing investigation works taking place at Kiama Public School.

Demountable classroom - necessary mould works

Mould was found in the demountable classroom and in the cleaner's storeroom on Friday 4 September 2026. A contractor attended the school to assess the required works on Wednesday 10 September 2026.

The following works have been completed:

- **Thursday 10 September 2026 (night):** Mould in the storeroom was cleaned, with several coats of undercoat and paint applied. The nook area and back wall of the demountable were also cleaned.
- **Friday 11 September 2026 (night):** The affected carpet was lifted and disposed of appropriately, and the floor treated.
- **Over the weekend (Saturday 12 and Sunday 13 September 2026):** New carpet was installed, along with further cleaning.

Air scrubbers and blowers were running continuously throughout the process to support drying and air quality.

Based on current progress, the demountable classroom is ready for students to return to on Monday 14 September 2026, unless further issues are found during the works.

Building 2 - update

Following our previous notification issued on [20 July 2026](#) regarding Building 2, all rooms and resources have been cleaned and inspected by an independent hygienist. Any items that could not be effectively cleaned will be disposed of.

During the cleaning, the contractor identified that a section of flooring felt unstable underfoot. As a precaution, this has been referred to an engineer for investigation, and students and staff will not return to this space until the assessment and any necessary works have taken place. We will keep the community updated.

For more information, refer to the [Mould and mildew hazard factsheet](#) and [Mould at work](#) from SafeWork NSW.

If you have any questions about this work, please contact the NSW Department of Education using the details below. Thank you for your understanding and support during this important work.
