

Kincumber Public School

Works notification | 16 October 2025

Dear staff, parents and carers,

During a recent inspection in the school holidays, damage was found in a Building E classroom at Kincumber Public School.

The following works had started on Thursday 9 October 2025:

- replacement of the carpet
- cleaning the walls, smart board and heater
- service of the heater
- patching damage to the ceiling.

The classroom was isolated while works were being done and the class was moved into a different room.

Repairs were finished Tuesday 14 October 2025 and the affected class has now returned to their classroom.

The health, safety and wellbeing of the school and the local community is our highest priority.

Thank you for your cooperation during this important work.
