

Kogarah Public School

Works notification | 6 December 2022

Dear staff and parents/carers,

The roofs of Block B, F and G are being replaced at Kogarah Public School as part of the Roof Replacement Program. Works will involve working with asbestos containing material in the ceiling above classrooms in Block B and the toilets in Block F and G.

Work will take place between Saturday 10 December and Sunday 11 December 2022. All asbestos containing material will be removed outside of school hours and in accordance with the advice of the independent hygienist.

The areas will be cordoned off and separated by hoarding and a fence before works start, and safety measures and air monitoring put in place. The classrooms and toilets will remain out of bounds to students and staff until the removal and roof replacement work is completed.

The areas will be remediated in accordance with SafeWork NSW regulations and the NSW Department of Education's Asbestos Management Plan. All work will be completed by licensed and accredited asbestos contractors, and monitored by occupational hygienists in strict accordance with all applicable legislation, regulations, policies and guidelines.

The areas will be inspected to ensure they have been fully remediated. The school will receive a clearance certificate before the areas are open to students and staff.

The health, safety, and wellbeing of the school and the local community is our highest priority. Thank you for your cooperation during this important work.
