

Kyogle Public School

Works notification | 16 February 2023

Dear staff and parents/carers,

Maintenance works to upgrade the toilets in Building K at Kyogle Public School will involve working with asbestos containing material in the ceiling. Building K is currently cordoned off within the construction site.

Work to remove the material from Building K will take place outside of school hours, on Saturday 18 February 2023, with additional safety measures and air monitoring in place before works start.

The area will remain out of bounds to students and staff until the removal of asbestos containing material, associated maintenance works and upgrade to the toilets is completed.

Work will be done in accordance with SafeWork NSW regulations and the NSW Department of Education's Asbestos Management Plan, undertaken by licensed and accredited asbestos contractors and monitored by occupational hygienists in strict accordance with all applicable legislation, regulations, policies and guidelines.

Following the removal of asbestos containing materials the area will be inspected to ensure it has been fully remediated and the school will receive a clearance certificate.

The health, safety, and wellbeing of the school and the local community is our highest priority.

Thank you for your cooperation during this important work.
