

Lake Wyangan Public School

Works notification | 18 May 2026

Dear staff, parents, and carers,

The health, safety, and wellbeing of all members of our school and the local community are our highest priorities.

As part of our proactive maintenance schedule, we will be undertaking works across Buildings A, B, C and L in multiple classrooms, as well as the administration demountable building at Lake Wyangan Public School.

Asbestos removal works

As part of these works, we will be removing bonded asbestos across multiple buildings and classrooms. Asbestos was used widely in Australian building materials before 1990. We manage the presence of asbestos in NSW public schools by maintaining an Asbestos Management Plan for each school and engaging independent hygienists for expert advice.

These areas are known to contain bonded asbestos as listed on the School's Asbestos Management Plan.

All work involving asbestos containing materials will take place between 7:30 am to 3 pm on Saturday 23 May 2026, with safety measures such as PPE, temporary fencing and air monitoring in place.

All work will be done in accordance with work health and safety laws and the NSW Department of Education's Asbestos Management Plan. Safety measures will take place while work is being done. All work will be completed by licensed asbestos contractors and inspected by independent hygienists.

Internal and external works

Internal and external upgrade works will then be carried out across the multiple buildings throughout the school. These works include replacing flooring, carpets, downpipes, internal lighting, air conditioning units, blinds, wall and ceiling linings, internal cladding and insulation, as well as removing and reinstating classroom furniture and other internal fixtures.

External works will also include repairs to solar panels, replacement of window coverings, removal of steel bars from windows near the principal's office, and general restoration works where required.

Works will take place from Monday 25 May 2026, and are expected to be completed by Wednesday 17 June 2026, weather permitting. Work will take place between 7 am and 6 pm Monday to Friday, and 8 am and 1 pm on Saturdays, in line with NSW Environment Protection Authority guidelines.

If you have any questions about this work, please contact the NSW Department of Education on the details below.

Thank you for your understanding and support during this important work.

What makes Lake Wyangan Public School special?

"What I love most is the genuine family feel. New kindergarten students are welcomed with warmth, supported by caring teachers and older students who help them settle in. It's a community where children feel safe, included, and valued." - **a parent of Lake Wyangan Public School**
