

Lawson Public School

Works notification | 27 January 2026

Dear staff, parents and carers,

A thorough clean-up and sanitising operation is underway at Lawson Public School following a sewage leak that affected some internal and external areas over the weekend.

No students are on site due to the current holiday period, and staff preparing for a return to school are now doing so off site.

The department is working with Sydney Water to determine the cause of the leak and repair it before students return to school next Monday, 2 February 2026.

Specialist cleaning contractors will sterilise and sanitise all affected areas. This includes the removal and disposal of all floor coverings. Regular school operations will not resume before the areas have been thoroughly cleaned and are completely sanitised.

As a result of the leak, pest control specialists also attended the school today to look at proactive measures that can be taken to reduce the risk of pests resulting from the waste.

The health, safety, and wellbeing of all members of our school and the local community continue to be our highest priorities.

If you have any concerns, you can contact us during business hours on the details below.

We will keep the community updated of any changes if they occur.

Thank you for your cooperation during this important work.
