

# Lisarow Public School

Works notification | 17 May 2023

Dear staff and parents/carers,

The old canteen demountable located between Buildings L and F will be removed from site at Lisarow Public School. In preparation for transportation, asbestos containing material located within the walls and ceilings will be removed.

The demountable is currently safe as the walls and ceilings are undisturbed and in good condition.

Further to the notification distributed on 3 May 2023, works to prepare the old canteen demountable for transportation were delayed due to contractor's availability. This will now take place on Saturday 20 May 2023, and if required, on Saturday 27 May 2023.

All works involving asbestos containing materials will take place outside of school hours, with additional safety measures and monitoring in place before works start.

The area will remain out of bounds to students and staff until the removal work is finished.

Work will be done in accordance with SafeWork NSW regulations and the NSW Department of Education's Asbestos Management Plan. All work will be completed by licensed and accredited asbestos contractors and monitored by occupational hygienists in strict accordance with all applicable legislation, regulations, policies, and guidelines.

The demountable will be inspected by an independent hygienist to confirm it has been fully remediated, and the school will receive a clearance certificate before the demountable can be removed from school site.

The health, safety, and wellbeing of the school and the local community is our highest priority. Thank you for your cooperation during this important work.
