

Lockhart Central School

Works notification | 30 May 2023

Dear staff and parents/carers,

We are replacing the ceiling sheets in the boys toilet at Lockhart Central School. As part of this work, asbestos containing material within the ceiling will need to be removed in Building D.

The toilets are being safely used at present as the ceiling sheets are undisturbed and out of reach to students and staff.

The toilets will be cordoned off before the work starts, and safety measures and monitoring put in place. The material will be remediated as soon as licenced and accredited contractors can be scheduled.

Work will be done in accordance with SafeWork NSW regulations and the NSW Department of Education's Asbestos Management Plan. All work will be completed by licensed and accredited asbestos contractors, and monitored by occupational hygienists in strict accordance with all applicable legislation, regulations, policies and guidelines.

The toilets will be inspected by an independent hygienist to confirm they have been fully remediated, and the school will receive a clearance certificate before they are reopened.

The health, safety, and wellbeing of the school and the local community is our highest priority.

Thank you for your cooperation during this important work.
