

Macdonald Valley Public School

Works notification | 25 August 2026

Dear staff, parents and carers,

We replaced a broken verandah panel in Building E at Macdonald Valley Public School.

The verandah panel was assumed to contain bonded asbestos as listed on the School Asbestos Management Plan (SAMP). The area was closed to students and staff.

Work to remove the asbestos-containing materials took place on Saturday 22 August 2026.

All work was done in accordance with work health and safety laws and the NSW Department of Education's Asbestos Management Plan. Safety measures were in place while work was being done. All work was completed by licensed asbestos contractors and inspected by independent hygienists before the area was reopened.

The health, safety, and wellbeing of all members of our school and the local community are our highest priorities.

If you have any questions about this work, please contact the NSW Department of Education on the details below

Thank you for your understanding and support during this important work.

For more information about asbestos please visit the [NSW Health website](#) or scan the QR code.
