

Mayfield East Public School

School holiday works notification | April 2023

School Infrastructure NSW regularly inspects and maintains school infrastructure as part of a comprehensive and ongoing program to keep school assets in optimal condition and ensure the safety and wellbeing of our school community across more than 2,200 NSW schools.

The school holidays are the ideal time for some maintenance projects as it means work can take place without disrupting learning.

Planned maintenance over the holidays may involve working with hazardous materials such as asbestos or lead containing material. This is to notify you of this work.

Planned maintenance

We are painting the exteriors of Buildings D and E, and two rooms on the ground floor within Building D at Mayfield East Public School.

Before painting starts, lead containing material in the existing exterior paint will be remediated. All work is taking place **during the April school holidays between Friday 7 April and Sunday 23 April 2023.**

We will install a temporary exclusion zone around the area before works start, and safety measures and monitoring will be put in place under the advice of an independent hygienist. It will remain out of bounds to anyone visiting the school site until the remediation work is finished.

Work will be done in accordance with SafeWork NSW regulations and the NSW Department of Education's Management Plan. All work will be completed by licensed and accredited contractors and monitored by occupational hygienists in strict accordance with all applicable legislation, regulations, policies and guidelines.

The area will be inspected to ensure it has been fully remediated and the contractor will receive a clearance certificate so works can start.

The health, safety, and wellbeing of the school and the local community is our highest priority. Thank you for your cooperation during this important work.

If you have any questions about the work, please contact us on the details below.
