

# Mayfield West Public School

## Works notification | 27 May 2025

Dear staff, parents, carers and neighbours,

Further to our notice issued on 16 May 2025, we have closely monitored Mayfield West Public School's stormwater system and its performance during the recent wet weather conditions.

In response to the heavy rainfall, on Tuesday 27 May a contractor will clear the main council stormwater lines in order to improve water flow and reduce the risk of flooding.

Additionally, on Wednesday 28 May the concrete stormwater pit lids will be removed for a thorough clean and further inspection.

Between Monday 26 and Friday 30 May, a suction truck will arrive onsite to clean the drainage pits on school grounds.

If you have any questions about this work, please contact the NSW Department of Education on the details below.

Thank you for your cooperation during this important work.

---

### Notification issued 16 May 2025

Dear staff, parents, carers and neighbours,

We would like to inform you about maintenance works to the stormwater drainage system at Mayfield West Public School.

Due to heavy rainfall, the stormwater drains along the northern boundary of the school have become blocked with debris.

On Thursday 15 May 2025 we engaged a plumber to clear the drains in order to improve water flow and reduce the risk of flooding.

Further remediation work to replace the stormwater pits for easier accessibility and maintenance has been scheduled to take place on Friday 16 and Saturday 17 May 2025 between the hours of 7:30 am and 5 pm.

We appreciate that some neighbours along the northern fence line have been affected by the wet weather and we are grateful for your patience while we work towards a solution.

If you have any questions about this work, please contact the NSW Department of Education on the details below.

Please note the community phone and email are staffed from Monday to Friday between 9 am and 5 pm.

Thank you for your cooperation during this important work.
