

Meadow Flat Public School

Works notification | 29 July 2025

Dear staff, parents and carers,

Further to the [works notification issued on 5 March 2025](#) regarding the drinking water quality test results for Meadow Flat Public School, remediation work has been completed by a qualified and accredited tradesperson. Work took place following advice provided by an independent hygienist.

Re-testing of the affected tap outlets by an independent hygienist has returned results which meet the requirements of the Australian Drinking Water Guidelines in the following locations:

- boys' and staff toilet handwashing sinks
- outdoor tap west of Building E.

Access to the tap outlets has been restored and can be used by students and staff.

The health and wellbeing of students, staff and the local community is our highest priority.

Thank you for your cooperation during this important work.
