

Milton Public School

Works notification | 31 August 2026

Dear staff, parents and carers,

We are writing to update you on an incident that occurred at Milton Public School.

During a scheduled lockdown practice on Friday 14 August 2026, the school's Public Address (PA) bell caught alight in Building U. Emergency services were called and responded quickly. The fire was contained to the PA system only there was no further damage to the building, and no staff or students were hurt.

As a precaution, the building was evacuated and power to the affected area was switched off. A contractor has been arranged to attend today to investigate and confirm the area is safe.

Over the weekend, a second small fire broke out in Building U, the same building as the PA bell fire. This time, the sensor light in the upstairs disabled toilet caught fire. Emergency services were called and responded quickly. This was unrelated to the PA fire.

An electrician was called to the school on Monday 24 August 2026 to investigate the wiring. All necessary works on the main switchboard and sensor toilet light have been completed.

The department will continue to monitor the situation and undertake any necessary adjustments to the wiring infrastructure identified as required. The safety and wellbeing of students, staff and the broader school community remains our priority.

If you have any questions about this matter, please contact the NSW Department of Education using the details below.

Thank you for your understanding and support.
