

Minmi Public School

Works notification | 5 June 2026

Dear staff, parents and carers,

We are replacing the demountable administration building located at the front of the school, near Woodford Street and Building A at Minmi Public School.

To better meet the needs of the school, the existing demountable building is being removed and replaced with a new, larger demountable with improved landscaping at the front. The new building will provide additional space and improved facilities to support students and staff, helping to ensure the school can continue to operate effectively while accommodating its current and future needs.

The new administration demountable has now been delivered, and refurbishment work is currently taking place to prepare the building for use.

The project has been delayed while improvements are made to the replacement demountable. Work will continue over the upcoming winter school holidays into Term 3.

We will keep the school community informed as the works progress and notify you when the new demountable is ready for use.

If you have any questions about this, please contact the NSW Department of Education using the details below.

Thank you for your understanding and support during this important work.
