

Miranda Public School

Works notification | 19 July 2023

In mid-May 2023, testing for mould was undertaken by an independent hygienist in the Miranda Education Office in Building B located on site at Miranda Public School. Miranda Education Office is not accessible from Miranda Public School and uses a separate entry.

Air sampling results detected wood moisture within the walls and under the sub-floor. Based on the recommendations of the independent hygienist, remediation was necessary to resolve water ingress issues in Building B.

Mould remediation works including surface cleaning and air quality testing took place between Friday 7 July and Wednesday 12 July 2023.

Testing was undertaken by an independent hygienist to ensure the areas were fully remediated. On the advice of the independent hygienist after receiving test results, further remediation to the storeroom and adjoining room into the Miranda Education Office in Building B is required.

Further remediation and testing – Week 1, Term 3

Additional mould remediation works to the storeroom and adjoining room in the Miranda Education Office in Building B will take place after school hours between Wednesday 19 July and Thursday 20 July 2023.

The areas are currently cordoned off and additional safety measures and monitoring are in place and will remain in place for the duration of the remediation works.

The areas will be remediated in accordance with SafeWork NSW regulations. All work will be monitored by occupational hygienists in strict accordance with all applicable legislation, regulations, policies and guidelines.

Building B will be inspected by an independent hygienist to ensure the areas are fully remediated. The Miranda Education Office will receive a clearance certificate, following remediation, before the areas are reopened.

The health, safety, and wellbeing of the school and staff is our highest priority, and we will continue to keep the school updated.

Thank you for your cooperation during this important work.
