

Mona Vale Public School

Works notification

24 November 2022

Dear staff and parents/carers,

Fragments of suspected asbestos containing material were recently found in the grounds of the playground area. The area has been cordoned off with temporary fencing and will remain out of bounds to students, staff, and visitors to allow further investigations to take place.

We are following all the advice and protocols of independent asbestos hygienists and other experts.

Testing will be conducted by an independent hygienist to confirm the nature of the material and if remediation is needed.

We will continue to keep the community updated and inform you of any remediation works that might be scheduled.

If necessary, this area will be remediated in accordance with SafeWork NSW regulations and the NSW Department of Education's Asbestos Management Plan. All work will be completed by licensed and accredited independent asbestos contractors, and monitored by occupational hygienists in strict accordance with all applicable legislation, regulations, policies and guidelines.

The health, safety, and wellbeing of the school and the local community is our highest priority.

Thank you for your understanding during this important work.
