

Morpeth Public School

School holiday works notification – Autumn | 2025

Dear staff, parents, carers and neighbours,

As part of planned maintenance, we will be removing known asbestos-containing material from an external wall and external eave sheet in a demountable classroom at Morpeth Public School.

NSW Health explains that “living or working with asbestos, or just being around it, is a low risk to your health as long as the asbestos is in good condition and not damaged”.

The school holidays are the ideal time to complete maintenance and project work across the state without disrupting learning.

Planned work over the Autumn School Holidays

Asbestos removal work will take place on Easter Monday (21 April) to avoid any disruption to the school’s vacation care program.

Safety measures, including air monitoring, temporary fencing, signage and workers wearing personal protective equipment, will be in place.

Once the work is completed, the independent hygienist will provide a clearance certificate allowing vacation care to resume on Tuesday 22 April and to reopen the classroom in Term 2.

All work will be completed by licensed asbestos contractors and inspected by an independent hygienist in accordance with work health and safety laws and the NSW Department of Education’s Asbestos Management Plan.

The health, safety and wellbeing of all members of our school and the local community are our highest priorities.

If you have any questions about this work, please contact the NSW Department of Education on the details below.

Thank you for your cooperation during this important work.
