

# Mount George Public School

## Works notification

25 October 2022

Dear staff and parents/carers,

Suspected asbestos containing material has been found in a damaged wall in the Block F storeroom at Mount George Public School. As a precaution, the area has been cordoned off and is out of bounds to students, staff and school visitors.

We will keep the community updated and inform you of the date of remediation works when this is confirmed.

Additional safety measures and monitoring will be put in place before works start. The area will remain out of bounds to students and staff until the removal and associated maintenance work is completed. All asbestos containing material will be removed outside of school hours and in accordance with the advice of the independent hygienist.

Work will be done in accordance with SafeWork NSW regulations and the NSW Department of Education's Asbestos Management Plan. All work will be completed by licensed and accredited asbestos contractors, and monitored by occupational hygienists in strict accordance with all applicable legislation, regulations, policies and guidelines.

The area will be inspected to ensure it has been fully remediated. The school will receive a clearance certificate before the area is open to students and staff.

The health, safety, and wellbeing of the school and the local community is our highest priority.

Thank you for your cooperation during this important work.

---
