

Mount Pritchard Public School

Works notification | 24 February 2026

Dear staff, parents and carers,

On Friday 6 February 2026 a blocked sink overflowed into the cabinetry in the community clinic room at Mount Pritchard Public School.

As a result, mould developed in the cabinetry.

An independent hygienist completed testing on 10 February 2026. Testing results and hygienist advice were received on 17 February 2026.

Following the advice of the hygienist, the room remained open to students and staff with signage in place around the affected area.

Following the advice of the hygienist an environmental clean of the community clinic room is scheduled on Wednesday 25 February.

All work involving mould will take place within school hours with safety measures in place. The room will be inspected by the independent hygienist to confirm it has been fully remediated.

The health, safety, and wellbeing of all members of our school and the local community are our highest priorities.

Thank you for your cooperation during this important work.
