

Murwillumbah Public School

Works notification | 1 May 2026

Dear staff, parents, and carers,

The health, safety and wellbeing of all members of our school and the local community are our highest priorities.

We are pleased to announce air conditioning upgrades at Murwillumbah Public School. These upgrades will be across all buildings at our school.

Installation began in February 2026. We are working closely with the school leadership team to ensure works are carried out efficiently with minimal disruption to the school community.

During the upgrade, buildings will be temporarily fenced off in different stages. Lessons normally held in these classrooms will be temporarily relocated to other available spaces in the school. Please follow any instructions from school staff during this time.

These air conditioning upgrades are expected to be finished by early Term 3 2026.

Working hours

Work will take place between 6:30 am and 6 pm, Monday to Friday. No work will take place on weekends or public holidays.

While we will do what we can to minimise any disruption to learning, there may be some construction noise while electrical works are happening.

If you have any questions about this work, please contact the NSW Department of Education on the details below.

Thank you for your understanding and support during this work.

What makes Murwillumbah Public School special?

Murwillumbah Public School was named an Australian Education Excellence Awardee for Rural Australian School of the Year in 2024.

Former Deputy Prime Minister Doug Anthony was a student at Murwillumbah Public School
