

Nords Wharf Public School

Works notification | 11 March 2024

Dear staff and parents/carers,

As part of routine maintenance work at Nords Wharf Public School we have removed and replaced a wall sheet located behind an air conditioner in a classroom in Building A. The wall was known to contain asbestos material as per the school's asbestos register.

Work to remove and replace the wall sheeting and update the air conditioner took place after hours Monday 26 February 2024. Before the work started, the room was cordoned off with additional safety measures and monitoring in place.

Work was done in accordance with work, health and safety laws and the NSW Department of Education's Asbestos Management Plan. All work was completed by licensed and accredited asbestos contractors and monitored by occupational hygienists in strict accordance with all applicable legislation, regulations, policies, and guidelines.

After the work was finished the school received a clearance certificate from the independent hygienist to reopen the room.

The health, safety, and wellbeing of the school and local community is our highest priority, and we will continue to keep the community updated.

Thank you for your cooperation during this important work.
