

Picton Public School

Works notification | 2 June 2025

Dear parents, carers, staff and neighbours,

We will be refurbishing the student toilets in Building D at Picton Public School.

As part of this work, we will be removing asbestos-containing wall and ceiling panels before replacing with new panels. The walls and ceilings are currently undisturbed and in good condition.

NSW Health explains that "living or working with asbestos, or just being around it, is a low risk to your health as long as the asbestos is in good condition and not damaged".

All work involving asbestos-containing materials will take place outside of school hours between Saturday 7 June and Thursday 12 June 2025.

During the asbestos removal work there will be air monitoring, signage and workers wearing personal protective equipment at the school. The toilets in Building D will be closed to students from Friday 6 June 2025 until the work to refurbish the toilets is completed. Students will use the toilets in Building A during the work.

All work will be done in accordance with work health and safety laws and the NSW Department of Education's Asbestos Management Plan. All work will be completed by licensed asbestos contractors and inspected by an independent hygienist.

The toilets in Building D will be inspected by the independent hygienist to confirm they have been fully remediated, and a clearance certificate will be issued before the work continues to refurbish the toilets. The health, safety and wellbeing of all members of our school and the local community are our highest priorities.

If you have any questions about this work, please contact the NSW Department of Education on the details below.

Thank you for your cooperation during this important work.
