

Pooncarie Public School

Works notification | 22 August 2024

Dear staff, parents and carers,

A septic tank overflowed, due to a suspected blockage, affecting a portion of the playground near the preschool room on Tuesday 20 August 2024.

No classrooms or learning areas were impacted.

The area was cordoned off and a plumber attended later that day to isolate the sewerage system.

A pumping truck arrived yesterday, Wednesday 21 August to empty the system and allow the school toilets to be used for the remainder of this week.

Portable toilets will be delivered and installed on Monday 26 August.

The school toilets will then be closed to allow for investigation into the blockage and any required remediation.

The health, safety, and wellbeing of the school and the local community is our highest priority.

We will keep the community updated.

Thank you for your cooperation during this important work.
