

Prestons Public School

Works notification | 13 October 2025

As part of the NSW Government's plan to rebuild public education, improvement works are taking place at Prestons Public School to support the long-term functionality of the school facilities.

Temporary relocation of the administration offices

On [19 September 2025](#) we informed you about 2 demountables being installed to support the improvement works to the Administration Building.

The demountables were installed over the spring school holidays as planned, though the installation took longer than expected.

We anticipate the buildings will be ready for use by students, staff and visitors by early November. Until then, students and staff can continue to use the current Administration Building as usual.

See map for the location of the temporary buildings and current Administration Building.

The health, safety, and wellbeing of the school and local community is our highest priority. We will keep the community updated as the work progresses.
