Raymond Terrace Public School

Works notification | 26 February 2026

Dear staff, parents, and carers,

On Wednesday 25 February 2026, a small electrical fire ignited from a faulty ceiling light affecting 2 classrooms in the Administration Building (Building B) at Raymond Terrace Public School.

As a precaution, the building was immediately evacuated, power was disconnected from these rooms, and the school was temporarily evacuated safely and efficiently as per the emergency drill.

Emergency Services attended the site and managed the fire promptly. No students or staff were affected by the fire or smoke.

The NSW fire brigade has provided clearance for school to resume normal operations.

All damages due to the electrical fire have been temporarily repaired. The electrical wiring has been inspected by a qualified electrician, and the faulty light and damaged wiring has been removed. As a precaution all remaining electrical components and lights in the rooms have been checked by a qualified electrician.

The 2 affected classrooms have reopened. The ceiling will be permanently repaired and all lights replaced outside of school hours in the coming days.

The health, safety and wellbeing of all members of our school and the local community are our highest priorities.

If you have any questions about this work, please contact the NSW Department of Education using the details below.

Thank you for your patience and cooperation during this work.
