

Rockdale Public School

School holiday works notification – Spring 2026

Dear staff, parents, carers and neighbours,

School holidays are the ideal time to undertake maintenance and project work across the state without disrupting learning.

Demountable removal at Rockdale Public School

We will be removing 3 demountable classrooms and adjacent synthetic turf located on the west side of Rockdale Public School between Saturday 26 September until Saturday 17 October 2026 (the end of Week 1, Term 4), weather and site conditions permitting.

Work hours will be between 7 am and 6 pm Monday to Friday, and 8 am and 1 pm on Saturday, in line with NSW Environment Protection Authority guidelines.

This work has been coordinated to occur mainly during the school holidays to minimise disruption to learning.

These demountables are no longer required by the school. By removing them, we can maximise the space available at the school and plan future projects in the area.

Asbestos removal

Due to their age, these demountables are assumed to have undisturbed bonded asbestos-containing material (ACM) in the building eaves, as listed on the School Asbestos Management Plan.

The ACM will not be removed from the demountable buildings while they are on the school site. The ACM will be sealed and secured prior to transporting offsite as per our guidelines.

All work will be done in accordance with work health and safety laws and the NSW Department of Education's School Asbestos Management Plan.

There may be some increased noise and traffic movements along Pitt Street, Lord Street and George Street during this work. We will minimise disruptions where possible while removal is taking place.

The health, safety and wellbeing of all members of our school and the local community are our highest priorities.

If you have any questions about this, please contact the NSW Department of Education using the details below.

Thank you for your understanding during this important work.
