

Rockdale Public School

Works notification | 31 July 2025

Dear staff, parents and carers,

We would like to provide you with an update about mould investigations and remediation being carried out at Rockdale Public School.

Further to our works notification issued on [4 July 2025](#), work to remediate mould in 3 classrooms in Building F were undertaken by a specialist mould cleaner during the Winter School Holidays.

An independent hygienist inspected the area, completed air quality testing and issued a clearance certificate. The rooms were deemed safe for use in time for lessons to resume in Term 3.

Despite no visible mould being detected following cleaning, school staff reported a faint odour still present in the cupboards of these rooms. As a precaution, additional cleaning of the cupboards will be undertaken between Wednesday 30 July 2025 and Friday 1 August 2025.

NSW Health advises that mould is a common part of our environment, found both indoors and outdoors. It belongs to a group of organisms called fungi, which also includes mushrooms and yeast.

You can learn more by reading the NSW Health Mould Factsheet or scanning the QR code below.

If you have any questions, please contact the NSW Department of Education using the details below

The health, safety and wellbeing of our school community remain our top priorities.

Thank you for your cooperation during this important work.
