

Rockley Public School

Works notification | 19 March 2025

Dear staff, parents and carers,

Drinking water quality testing was recently conducted at Rockley Public School as part of our routine water testing program.

We have detected findings from the following tap outlets:

- staff toilet handwashing tap in Building D (bacteria)
- staff kitchen tap in Building H (lead)

Access has been restricted to the tap outlets and signage is in place.

Bottled water is being supplied for staff as needed.

We are working with an independent hygienist to undertake any remediation work required.

All work will be carried out by qualified contractors. We will undertake additional testing at the school following the work to ensure the water can continue to be used.

The health, safety and wellbeing of the school and the local community is our highest priority.

If you have any questions about this work, please contact the NSW Department of Education on the details below.

Thank you for your cooperation during this important work.
