Rockley Public School
Works notification | 25 June 2026

Dear staff, parents, and carers,

The health, safety, and wellbeing of all members of our school and the local community are our highest priorities.

We would like to provide you with an update on the works notification sent on 30 March 2026 regarding the drinking water quality test results for Rockley Public School.

We are pleased to inform you that the works conducted in the sink tap located in staff kitchen in Building H and sink taps in classroom 1 and movement area in Building C have now been completed by a qualified and accredited contractor.

Following the completion of these works, the affected water supply outlets were re-tested by an independent hygienist. The results confirm that the water quality now meets the requirements of the Australian Drinking Water Guidelines.

Access to the water supply outlets in Building C and H have been restored and can now be used by students and staff.

If you have any questions about this process, please contact the NSW Department of Education.

Thank you for your understanding and support during this important work.
