## School holiday works notification - Summer | December 2023

School Infrastructure NSW regularly inspects and maintains schools to ensure the safety and wellbeing of our school communities.

The school holidays are the ideal time for a lot of maintenance and project work to take place in schools across the state without disrupting learning. The Summer school holiday period is our busiest of the year as this extended time allows us to complete work that takes longer or may be more disruptive.

Planned work over the school holidays at some schools may involve working with hazardous materials such as asbestos or lead containing material. This may include remediation or removal of material, or sampling. This notification is to let you know about work taking place at your school involving these materials.

### **Planned work by Transport for NSW (TfNSW)**

TfNSW will be conducting noise treatment works in Buildings G and H at your school to reduce the impact of noise from the Bringelly Road upgrade. This work will take place during the Summer school holidays, from the end of Tuesday 19 December 2023 to the first day of students returning on 1 February 2024.

This work involves drilling and mounting equipment to wall sheets in Building G known to contain asbestos, as per the school's asbestos register.

TfNSW will provide clearance for the area to be reopened when the works are complete.

The health, safety, and wellbeing of the school and the local community is our highest priority. Thank you for your cooperation during this important work.

If you have any questions about the Bringelly Road upgrade, please contact TfNSW directly on 131 500 or <https://www.transport.nsw.gov.au>.

If you have any questions about the work at your school, please contact us on the details below.
