

Rouse Hill Public School

Works notification | 16 October 2026

Dear families,

We are writing to inform you of the temporary closure of classroom 2NO.

What happened

In March 2026, wet carpet and mould was found in the 2NO classroom. The cause was identified as a leak in the roof. The department promptly arranged for specialist assessment and remediation, and independent hygienists inspected the rooms and gave subsequent clearance.

Follow up testing

An additional mould and moisture inspection was undertaken by an independent hygienist in late September 2026. This inspection found no visible mould or odours, however an analysis of surface sampling in classroom 2NO identified some residual mould spores on a skirting board.

While this skirting board has since been replaced over the spring school holidays, a follow-up hygienist inspection recommended the room remain closed while further investigations are carried out to ensure full clearance of the space.

What happens next

The room has not reopened for staff and students. Contractors will carry out further work as required and an independent hygienist will then test the room again once this is complete. 2NO will stay closed until the hygienist provides clearance for it to reopen.

Temporary classroom arrangements

A three-room swap is being organised:

- 5-6D will relocate to the Library.
- 2NO will move to 5-6D's classroom.

The health, safety, and wellbeing of all members of our school and the local community are our highest priority.

If you have any questions about this work, please contact the NSW Department of Education on the details below.

Thank you for your understanding and support during this important work.
