

Rydalmere Public School

Works notification | 19 June 2025

Dear staff, parents and carers,

As part of our regular maintenance, we are replacing some external eaves and linings in the Administration Building at Rydalmere Public School.

The material in the external eaves and linings of this building is known to contain bonded asbestos.

NSW Health explains that “living or working with asbestos, or just being around it, is a low risk to your health as long as the asbestos is in good condition and not damaged”.

Work to replace the eave and lining material is planned to take place on Saturday 28 June 2025. Following this work these external areas will also be repainted.

Safety measures in place during the work include air monitoring, signage and workers wearing personal protective equipment.

All work will be done in accordance with work health and safety laws and the NSW Department of Education’s Asbestos Management Plan. All work will be completed by licensed asbestos contractors and inspected by an independent hygienist who will provide clearance to continue using the affected areas.

The health, safety and wellbeing of all members of our school and the local community are our highest priorities.

If you have any questions about this work, please contact the NSW Department of Education on the details below.

Thank you for your cooperation during this important work.
