

Rydalmere Public School

Works notification | 3 September 2025

Dear staff, parents, carers and neighbours,

We are replacing floor coverings in Building E, the block near John Street, and the Administration Building, at Rydalmere Public School.

Work will involve removing carpet and vinyl tiles underneath. The vinyl tiles are known to contain bonded asbestos and is listed in the school's asbestos register.

NSW Health explains that "living or working with asbestos, or just being around it, is a low risk to your health as long as the asbestos is in good condition and not damaged".

Building E and administration upgrades

New carpet floor coverings will be installed in all classrooms in Building E and the Administration Building. Work will start Saturday 6 September 2025 and is expected to finish by early October 2025. Works will involve:

- removal and disposal of existing carpet and vinyl tiles containing bonded asbestos with air monitoring in place
- installation of new carpet.

All work involving asbestos-containing materials will take place outside of school hours. Removal will take place between 8am and 1pm on Saturday 6 September 2025.

All work will be done in accordance with work health and safety laws and the NSW Department of Education's Asbestos Management Plan. Safety measures will be in place while work is being done. All work will be completed by licensed asbestos contractors and inspected by independent hygienists.

The health, safety, and wellbeing of all members of our school and the local community are our highest priorities. We will keep the community updated.

Thank you for your cooperation during this important work.
