

Ryde Public School

Works notification | 21 November 2024

Dear staff, parents and carers,

As part of planned maintenance, we are removing and replacing the fire doors on an electrical distribution board cupboard in Building C at Ryde Public School.

The material in these doors is assumed to contain asbestos. NSW Health explains that 'living or working with asbestos, or just being around it, is a low risk to your health as long as the asbestos is in good condition and not damaged'.

The material is currently undisturbed and in good condition. Work to remove and replace the doors are planned to take place on Sunday 24 November 2024.

All work involving asbestos-containing materials will take place outside of school hours. All work will be done in accordance with work health and safety laws and the NSW Department of Education's Asbestos Management Plan. All work will be completed by licensed asbestos contractors and monitored by independent hygienists.

Following the work the area will be inspected by the independent hygienist and clearance will be provided to continue using the area.

The health, safety and wellbeing of the school and the local community is our highest priority.

If you have any questions about this work, please contact the NSW Department of Education on the details below.

Thank you for your cooperation during this important work.
