

St Peters Public School

Works notification

18 November 2022

Dear staff and parents/carers,

Upcoming construction work to convert an old office into a classroom at St Peters Public School, will involve working with asbestos containing material underneath the carpet in Room 10. The material has been confirmed as bonded asbestos which means it is attached to other material such as cement or vinyl and cannot be crumbled by light pressure.

We are following all the advice and protocols of asbestos removalists, assessors and other experts.

Work to remove the asbestos containing material will take place on Saturday 26 November 2022. All asbestos containing material will be removed outside of school hours and in accordance with the advice of the independent hygienist.

The area is cordoned off within a worksite and separated by hoarding and a fence. Safety measures and air monitoring will be put in place while work is taking place. The area will remain out of bounds until the remediation and associated maintenance work is completed.

Work will be done in accordance with SafeWork NSW regulations and the NSW Department of Education's Asbestos Management Plan. All work will be completed by licensed and accredited asbestos contractors, and monitored by occupational hygienists in strict accordance with all applicable legislation, regulations, policies and guidelines.

The area will be inspected to ensure it has been fully remediated. The school will receive a clearance certificate before the area is open to students and staff.

The health, safety, and wellbeing of the school and the local community is our highest priority. Thank you for your cooperation during this important work.
