

Sawtell Public School

Works update | 4 September 2024

We are providing you an update on the work we advised you about on 31 May 2024.

As we mentioned below, we had planned to remove lead-containing paint in Buildings B and H during June and July.

This work was delayed and will now take place this weekend (September 7 to 8). All other asbestos and lead dust-related work has been completed at Sawtell Public School.

Dear staff, parents and carers,

We are writing to provide an update about the roof works that are taking place at Sawtell Public School this year.

As we notified on 16 May 2024, this work involves working with lead-containing dust and asbestos-containing material.

In addition, we will also be removing lead-containing paint in Buildings B and H over the next 8 weekends starting Saturday 1 June until Sunday 21 July.

All work will be done in accordance with work, health and safety laws. All work will be completed by licensed and accredited contractors and monitored by independent hygienists in strict accordance with all applicable legislation, regulations, policies and guidelines.

Both buildings will be inspected by the independent hygienist to confirm it has been fully remediated, and a clearance certificate will be issued before the buildings are reopened.

The health, safety, and wellbeing of the school and the local community is our highest priority. We will keep the community updated.

Thank you for your cooperation during this important work.
