

Seaham Public School

Works notification | 1 November 2023

Dear staff and parents/carers,

We are replacing the roof of the canteen building (Building G) at Seaham Public School. In preparation for the replacement, we will be removing material known to contain asbestos and lead as per the school's asbestos register and investigations as part of project planning.

Work to remove the material will take place on Saturday 18 November 2023.

The building continues to be used as the materials are undisturbed and within the roof cavity.

Building G will be cordoned off before the work starts, with additional safety measures and monitoring in place. The building will remain within a construction site until the roof replacement work is complete in early December.

All work involving lead or asbestos containing materials will take place outside of school hours, with additional safety measures and monitoring in place before the work starts.

Work will be done in accordance with SafeWork NSW regulations and the NSW Department of Education's Asbestos Management Plan. All work will be completed by licensed and accredited asbestos contractors and monitored by occupational hygienists in strict accordance with all applicable legislation, regulations, policies, and guidelines.

The buildings will be inspected by an independent hygienist to confirm they have been fully remediated, and the contractor will receive a clearance certificate to continue roof replacement work.

The health, safety, and wellbeing of the school and the local community is our highest priority.

Thank you for your cooperation during this important work.
