

Singleton Public School

School holiday works notification – Autumn 2026

Dear staff, parents, carers and neighbours,

School holidays are the ideal time to undertake maintenance and project work across the state without disrupting learning.

Planned work over the upcoming holidays

We are upgrading the student bathrooms in Building D at Singleton Public School during the autumn holidays.

This project involves refurbishing the boys and girls toilets by replacing the existing partitions, floor covering and fixtures, fittings and finishes with new water-efficient improvements including toilets, urinals, basins and taps.

Work will start from Monday 13 April and continue through Term 2 to Friday 15 May 2026, weather and site conditions permitting.

Working with asbestos

The ceiling and wall linings, floor coverings and cubical partitions in the student toilets in Building D are known to contain bonded asbestos as listed on the School Asbestos Management Plan.

All asbestos-containing material will be removed between Monday 13 April and Sunday 19 April 2026. Work will be done under the guidance of an independent hygienist who will inspect and issue a clearance certificate once the work is finished. Safety measures, including air monitoring, will be in place.

All asbestos-related work will be done in accordance with work health and safety laws and the NSW Department of Education's Asbestos Management Plan. All work will be completed by licensed asbestos contractors.

What to expect during construction

Construction work hours are between 7 am and 6 pm Monday to Friday, and 8 am and 1 pm on Saturday, in line with NSW Environment Protection Authority guidelines.

Construction vehicles will enter the school via Hunter Street and park in the restricted construction area. Traffic control will be used as required for the safety of students, staff and the local community. Please follow the directions of any temporary signage and traffic controllers when in place.

The safety of the school, visitors and the local community is our highest priority. We are committed to minimising disruptions where possible while work is taking place.

For more information about how we manage construction impacts, please visit our webpage at edu.nsw.link/ConstructionImpacts or scan the QR code.

If you have any questions about this work, please contact the NSW Department of Education on the details below.

Thank you for your understanding and support during this important work.
