

Stratford Public School

Works notification | 23 May 2023

Dear staff and parents/carers,

We are refurbishing a staff toilet and staffroom in Building A at Stratford Public School. This work will involve working with asbestos containing material located within the walls.

The rooms are being safely used at present as the walls are undisturbed and in good condition. They will be cordoned off before the work starts.

Work to remove the material will take place outside of school hours, over the upcoming weekend from Saturday 27 May to Sunday 28 May 2023, with additional safety measures and monitoring in place before the work starts.

Work will be done in accordance with SafeWork NSW regulations and the NSW Department of Education's Asbestos Management Plan. All work will be completed by licensed and accredited asbestos contractors and monitored by occupational hygienists in strict accordance with all applicable legislation, regulations, policies, and guidelines.

The staff toilet and a staff room will be inspected by an independent hygienist to confirm they have been fully remediated, and the contractors will receive a clearance certificate before maintenance works can continue.

The health, safety, and wellbeing of the school and the local community is our highest priority.

Thank you for your cooperation during this important work.
