

Sutton Public School

Works notification | 6 June 2025

Dear staff, parents and carers,

Further to the [notification issued 4 March 2025](#) regarding the drinking water quality test results for Sutton Public School, remediation work has been completed by a qualified and accredited tradesperson following advice provided by an independent hygienist.

We are pleased to advise that re-testing of the impacted tap outlet in a K-2 classroom and the student bubblers by an independent hygienist has returned results which meet the requirements of the Australian Drinking Water Guidelines.

Access to the tap outlet and bubblers has been restored and can continue to be used as normal by students and staff.

The health and wellbeing of students, staff and the local community is our highest priority.

Thank you for your cooperation during this important work.
