

Swansea Public School

Works notification | 28 January 2026

Dear staff, parents, carers and neighbours,

In November 2025, severe storms caused significant damage to the hall roof and Covered Outdoor Learning Area (COLA) near buildings C and I at Swansea Public School.

Repairs were conducted throughout December 2025, which included replacing the damaged hall roof and temporarily securing the COLA.

A qualified structural engineer recently assessed the damaged COLA and advised the existing structure should be demolished and replaced.

Demolition and removal of the COLA is planned for **Friday 30 January until Sunday 1 February 2026**.

Temporary fencing will be in place during this period to isolate the construction area while work is underway. As a precaution, adjacent buildings C and I will be temporarily closed during the staff development days in early Term 1 2026 until removal is finished.

The COLA demolition and removal work will be finished before students return on Monday 2 February 2026. Design and construction of a replacement COLA will start later in 2026. We are working closely with school leadership to ensure the COLA replacement is carried out efficiently with minimal disruption and we will keep the community updated as information becomes available.

There may be some noise while work is taking place. We are committed to managing noise in line with regulatory requirements and will make every effort to ensure works are carried out safely and efficiently with minimal disruption to the community.
