

Tenambit Public School

Works notification

10 November 2022

Dear staff and parents/carers,

Upcoming maintenance works to upgrade the administration and staff areas as part of the Regional Renewal Program at Tenambit Public School will involve working with asbestos containing material in the floor of Block B.

The material is bonded asbestos, which means it is attached to other material such as cement or vinyl and cannot be crumbled by light pressure.

Work will take place on Saturday 19 November 2022. All asbestos containing material will be removed outside of school hours.

The area will be cordoned off before works start, and safety measures and monitoring put in place. It will remain out of bounds to students and staff until the removal and associated maintenance work is completed.

This area will be remediated in accordance with SafeWork NSW regulations and the NSW Department of Education's Asbestos Management Plan. All work will be completed by licensed and accredited asbestos contractors, and monitored by occupational hygienists in strict accordance with all applicable legislation, regulations, policies and guidelines.

The area will be inspected to ensure it has been fully remediated. The school will receive a clearance certificate before the area is open to students and staff.

The NSW Government is investing \$240 million as part of the COVID-19 Recovery Plan to accelerate projects across rural and regional NSW.

The health, safety, and wellbeing of the school and the local community is our highest priority.
