

Tenambit Public School

Works notification

26 October 2022

Dear staff and parents/carers,

The administration and staff areas at Tenambit Public School are being upgraded as part of the Regional Renewal Program. Upcoming works will involve working with asbestos containing material in the walls, ceilings and eaves of Block B.

The material is bonded asbestos, which means it is attached to other material such as cement or vinyl and cannot be crumbled by light pressure.

Work will take place on Saturday 29 October 2022. All asbestos containing material will be removed outside of school hours.

The area will be cordoned off before works start. It will remain out of bounds to students and staff until the removal and associated maintenance work is completed.

This area will be remediated in accordance with SafeWork NSW regulations and the NSW Department of Education's Asbestos Management Plan. All work will be completed by licensed and accredited asbestos contractors, and monitored by occupational hygienists in strict accordance with all applicable legislation, regulations, policies and guidelines.

The area will be inspected to ensure it has been fully remediated. The school will receive a clearance certificate before the area is open to students and staff.

The NSW Government is investing \$240 million as part of the COVID-19 Recovery Plan to accelerate projects across rural and regional NSW.

The health, safety, and wellbeing of the school and the local community is our highest priority.

Thank you for your cooperation during this important work.
