

Terrigal Public School

Works notification | 5 September 2024

Dear staff, parents and carers,

We'd like to give you an update on the mould remediation in Building J at Terrigal Public School.

We received confirmation from the independent hygienist that remediation works have begun and will continue over the coming days. An environmental clean of the rooms has been scheduled which involves wiping of hard surfaces, HEPA vacuuming and air purifying. The rooms will be ready to reopen for use by Monday 9 September 2024.

Thank you for your patience.

Notification issued on 27 August 2024

Dear staff, parents and carers,

Following an inspection on Tuesday 27 August 2024, mould was detected in a classroom and storeroom in Building J at Terrigal Public School.

As a precaution, the affected rooms were immediately cordoned off from students and staff, and classes were relocated to the library. A hygienist has been engaged to undertake air monitoring and provide advice on remediation.

The classroom and storeroom will remain isolated from students and staff while further testing and remediation is conducted.

The health, safety, and wellbeing of the school and local community is our highest priority. We will continue to keep the community updated.

If you have any questions about this work, please contact the NSW Department of Education on the details below.

Thank you for your cooperation during this important work.
