

Tighes Hill Public School

School holiday works notification | Spring 2026

Dear staff, parents, carers and neighbours,

School holidays are the ideal time to undertake maintenance and project work across the state without disrupting learning.

Planned work over the upcoming holidays

We will be continuing the [Heritage Stoneworks Restoration Program](#) at Tighes Hill Public School during the spring holidays.

As part of these works, we will be replacing the timber veranda on the external eastern wall of Building B. This wall is known to contain bonded asbestos as listed on the School's Asbestos Management Plan.

Building B is still fenced off from students and staff as part of the existing construction zone.

We will be removing the asbestos from this wall in one day during the spring holidays, between Monday 28 September 2026 and Thursday 8 October 2026.

All work involving asbestos containing materials will take place with safety measures such as personal protective equipment, temporary fencing and air monitoring in place.

All removal work will be done in accordance with work health and safety laws and will be inspected by an independent hygienist.

The health, safety and wellbeing of all members of our school and the local community are our highest priorities.

If you have any questions about this project, please contact the NSW Department of Education during business hours using the details below.

Thank you for your understanding during this important work.
